Install track (A)

Instale el riel (A) Installez la voie coulissante (A)

Note: If worksurface is not pre-drilled, position track (A) 1/2" in from front edge of worksurface. Use holes in track (A) as template and drill 5/8" deep holes.

Nota: Si la superficie de trabajo no tiene agujeros previamente taladrados, coloque el riel (A) a 13 mm (1/2 plg.) del borde de adelante de la superficie de trabajo. Use los agujeros del riel (A) como plantilla y taladre agujeros de 16 mm (5/8 de plg.) de profundidad.

Remarque : S'il n'y a pas de trous préalablement perforés sous la surface de travail, placez la voie coulissante (A) à 13 mm (1/2 po) du rebord avant de la surface de travail. Utilisez les trous de la voie coulissante (A) pour marquer l'emplacement des vis et perforez des trous ayant une profondeur de 16 mm (5/8 po.)

Slide glides (J) into grove of track (A)

Deslice los deslizadores (J) en la guía del riel (A) Insérez les coulisses (J) dans les rainures de la voie coulissante (A)

IMPORTANT: Make sure the glides (J) are oriented as shown.

Note: If necessary tilt to lower keyboard pad (H).

IMPORTANTE: Asegúrese de que los deslizadores (J) estén orientados como se muestra.

Nota: En caso de necesidad inclinación para bajar el cojín del teclado (H).

IMPORTANT: Assurez-vous que les coulisses (J) sont orientées conformément à l'illustration.

Remarque: Au besoin inclinaison pour abaisser la garniture de clavier (H).
